4.1. **Summary of Objectives**

The objectives of the draft Planning Agreement are:

- (a) to increase public parking supply in off-street parking areas where it can be provided and used more efficiently.
- (b) to facilitate such other or related public parking purposes as set out in clause 3.7 of the Burwood Development Control Plan.

4.2 **Nature and Effect of the Draft Planning Agreement**

The nature and effect of the draft Planning Agreement is to authorise a shortfall in residential and office premises parking that would otherwise be required by the New Development Application under the provisions of the Burwood Development Control Plan in lieu of payment of the Monetary Parking Contribution towards facilitating accessible and convenient public parking.

The reasons underpinning this 'contributions in lieu' strategy, as set out in the Burwood Development Control Plan, include:

- (a) Locating some parking spaces in consolidated public car parks that have extended opening hours, higher turnover and safe and secure access will provide better, more useable parking facilities being available to the general public.
- (b) Locating some parking spaces in consolidated public parking areas means better use of resources and value for money for developers and the community.
- (c) Locating some parking spaces in consolidated public parking areas supports greener and cleaner outcomes for the community. Business centres need adequate parking supply to meet the needs of users and to compete with other centres, balanced with encouragement of public transport use, walking and
