Burwood Council

Pricing Policy

In accordance with Section 608 of the Local Government Act 1993 and other relevant legislation, Burwood Council charges and recovers approved fees and charges for any services it provides as contained within the document entitled Fees and Charges 2022-23.

Fees and charges are generally intended to be imposed on the following services provided by Council under the Local Government Act or any other Act or regulations:

- Supply of a product, service or commodity;
- Giving of information;
- Providing a service in connection with the exercise of the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate;
- Allowing admission to any building or enclosure;
- Possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel or structure laid, erected, suspended, constructed or placed on, under or over a public place (s.611)
- Allowing the use or benefit from Council's assets, possessions, etc.

Burwood Council's general policy in determining the amount of fees to be charged for goods and services considers the following factors:

- The cost of providing the service
- The importance of the service to the community
- Prices fixed by the relevant industry body
- Any factors specified in the Local Government Regulations
- Equity factors
- User pays principle
- Financial objectives
- Customer objectives
- Resource use objectives
- Market prices
- Cross subsidisation objectives
- Goods and Services Tax (GST)

Ref	Name	Year 21/22	Year 22/23			Price Code
		Last YR Fee (incl. GST)	Fee (excl. GST)	GST	Fee (incl. GST)	

Pricing Policy [continued]

In cases where the amount of fees and charges for service is determined under another Act or regulatory body, Council's policy is not to determine an amount that is inconsistent with the amount determined under the other Act or regulatory body.

All of Council's fees and charges not subject to statutory control are reviewed on an annual basis prior to finalisation of Council's annual operating budget. However, in special circumstances, fees and charges can be reviewed and approved by Council in accordance with the Local Government Act 1993 and Regulations.

Price Codes

FC - Full Cost Pricing

Council recovers all direct and indirect costs of the service (including depreciation of assets deployed).

PC - Partial Cost Pricing

Council recovers less than the full cost (as defined above). The reasons may include community service obligation, priorities or legislative limits on charging.

LR - Legislative Requirements

Price of the service is determined by Legislation, and dependent on price, may or may not recover full cost.

MP - Market Pricing

The price of the service is determined by examining alternative prices of surrounding service providers (this also may or may not recover the full costs of the service) eg children's services.

Z - Free (Zero Priced)

Some services may be provided free of charge and the whole cost determined as a community service obligation and / or may fall within a class of public good.

RR - Rate of Return Pricing

This would include Full Cost Pricing as defined above in addition to a profit margin to factor in a return to Council for assets employed.

BD - Bonds and Deposits

Refundable deposit against possible damage to Council property.

Goods and Services Tax Act 1999 (GST)

Those goods and/or services that have been subject to GST have been identified in Council's Fees and Charges as GST applying. In accordance with taxation legislation the price shown for those goods and/or services is the GST inclusive price.

The Fees and Charges for 2022-23 have been prepared using the best available information in relation to the GST.

However, if a fee is shown as being subject to GST is subsequently proven not to be subject to GST then that fee will be amended by reducing the GST to Nil. Conversely, if it is determined that a fee shown as being not subject to GST then the fee will be increased but only to the extent of the GST.

Building Services

General Information

Builders Indemnity Insurance

Construction Certificates and Complying Development Certificates cannot be issued unless the applicant provides a certificate of insurance issued by an approved insurer under the Home Building Act 1989.

Persons who wish to do building work on their own home may apply to the Department of Fair Trading for an owner-builder permit where:

1. the cost of the work exceeds \$5,000;
2. the work relates to a single dwelling - house or dual occupancy; and
3. the work requires development consent or is complying development.

An owner-builder who sells their dwelling within 7 years of completion of the work must take out home warranty insurance. Works valued less than \$12,000 value, no insurance is required when carried out by a licensed builder.

Long Service Levy

For building or subdivision works that exceed a value of \$25,000, payment of the Long Service Levy to the Long Service Levy Payments Corporation is required prior to Council (or an accredited certifier) issuing the Construction or Complying Development Certificate.

Council acts as an agent for collection of this levy. The amount payable is currently fixed at 0.35% of the total cost of the work and is GST exempt.

Car Parking Rate for Monetary Contributions in Lieu of On-Site Parking under a Voluntary Planning Agreement and the DCP

0356	Rate per parking space	\$53,055.00	\$54,120.00	\$0.00	\$54,120.00	FC
------	------------------------	-------------	-------------	--------	-------------	----

The rate is provided as a guide to applicants and is intended to represent a reasonable base rate for the construction of a single parking space within a basement or parking complex. In the case where the car parking rate yields a whole number and a fraction, the fraction has to be rounded up to the next whole decimal number. E.g 15.5, 15.8 = 16 spaces. Council reserves the right to negotiate a variation of this rate as part of a Voluntary Planning Agreement. For further information, refer to the Burwood Development Control Plan and the addendum to the Planning Agreements Policy.

Monetary Contribution for Bonus Development

The rate is over and above the requirements of the Section 7.12 Contributions Plan for the Burwood Town Centre, Strathfield Town Centre, Burwood Road Burwood (between Parramatta Road and Meryla Street) and land in the B2 local centre zone along northern side of Liverpool Road Burwood and Strathfield. The monetary contribution is paid to Council as part of a Voluntary Planning Agreement. The rate is subject to review and change by Council.

Planning Proposals for LEP Amendments and DCP Amendments

1. A planning proposal for a minor LEP generally refers to a single allotment spot rezoning generated by a planning anomaly or inconsistency, or minor amendments such as the deletion of a heritage item or modification of a development standard. These LEP amendments are generally not complex or contentious. A planning proposal for a major LEP refers to all other rezoning applications submitted to Council. Fees for both major and minor LEP amendments are not refundable.
2. A new applicable fee may be payable again should the applicant amend a planning proposal for submission to Council.
3. One fee will be charged if a DCP is prepared by the applicant in conjunction with a planning proposal.

Roads and Footpaths

Roads Act 1993

Roads and footpaths approvals under s138

General Conditions for Roads and Footpaths

- The following conditions apply to all fees and charges listed under Roads and Footpaths:
 - Other costs, such as traffic control, night work, and other costs associated with night work such as plant opening fees, are subject to confirmation at the time of pricing.
 - Saw-cutting costs for footpaths, driveways, paving apply. Refer relevant rate.
 - RMS specific requirements, including appropriate occupancy licences, are not included in the above costs, and will be subject to pricing at the time of works and fully payable by the applicant.
 - RMS peak period time constraints are not included in the rates above. Where these constraints are imposed, the rates will be modified to reflect the limited access periods, and will be advised to the applicant as a modified rate, applicable only to that works.
 - All prices are based on the underlying base, sub-base and sub-grade having been restored to meet AUSPEC 306 as amended. Works that do not meet 306 Specifications and are below the depth for nominated items above will be undertaken by Council at full cost to the applicant.
 - Areas that exceed the stated quantities will be priced as a separate lump sum to the applicant.
 - Excavation material includes earth and materials other than rock and other than contaminated soils. Where rock and / or contaminated soils are encountered, the additional costs associated with the excavation and / or treatment will be payable by the applicant as a latent condition and additional to the scheduled rate at cost plus 15%.
- For road, footpath, kerb and gutter replacements arising from development approval related activities, applicable fee will be determined following a site assessment and based on affected area.
- Where a road opening is undertaken without notification, in addition to any infringement notices that may be issued, an additional administrative fee calculated at 20% of the total cost of the actual works is payable.
- Council Officers shall be required to supervise and inspect all works undertaken by contractors undertaking works on behalf of a utility or being undertaken for an individual, corporation or private entity. Additional supervision costs will be calculated and incurred for works outside of normal business hours being 6.30 am to 3.00 pm Monday to Friday (excluding public holidays).

Note: Charges for restoration work made under S101 and S102 of the Road Act within council area are not subject to GST whether charged direct to Telstra, Sydney Water etc. or charged to a contractor engaged by them.
