Executive Summary

Burwood North Precinct is located within the Burwood Council and City of Canada Bay local government areas (LGAs), approximately 8 km west of Sydney central business district (CBD), NSW. The precinct has been identified in the Parramatta Road Corridor Urban Transformation Strategy (PRCUTS); an NSW Government strategy developed to revitalise land from Granville to Camperdown. The PRCUTS established a 30-year vision to connect Sydney and Parramatta CBDs via a renewed urban corridor.

Burwood Council have commissioned Cox Architecture Pty Ltd (Cox Architecture) to develop a masterplan and future planning controls for the Burwood North Precinct. Cox Architecture subsequently commissioned Mott MacDonald Pty Ltd (Mott MacDonald) to prepare a preliminary site investigation (PSI) of the Burwood North Precinct Masterplan Study Area. The PSI identifies the current and historical potentially contaminating activities (PCAs) in the vicinity of the Burwood North Precinct, which may have the potential to variously impact any proposed future development. This PSI will form part of, and help inform, the new Burwood North Precinct Masterplan.

The primary objectives of the preliminary site investigation (PSI) were to:

- Identify PCAs and associated chemicals of potential concern (CoPC) relating to the current and historical use of the Burwood North Precinct
- Provide comment on each PCA in regard to potential risks to human health and the environment based to help inform future risks associated with the Masterplan.

The preliminary site investigation comprised of:

- A review of publicly available online resources
- A desktop assessment
- A walkover of the Burwood North Precinct and immediate surroundings
- Preparation of this report.

The following PCAs and assigned potential (low to moderate) were identified within and adjacent to the Burwood North Precinct:

- Battery manufacture, recycling or disposal (low)
- Dry cleaning (moderate)
- Electrical or electronics component manufacture (low)
- Metal coating, finishing or spray painting (low)
- Motor vehicle repair or maintenance (low)
- Motor vehicle wrecking yards (moderate)
- Printers (low)
- Service stations (moderate)
- Tyre manufacture or re-treading (low)
- Application of pesticides (low)
- Transport depots or loading sites (low)
- Fill or soil importation (low).

Based on the desktop assessment several sites may have the potential for site contamination. The nature and extent of any contamination cannot be determined by a desktop assessment. Based on the findings of the PSI it is considered likely that soil, soil vapour and/or groundwater contamination considerations may need to be taken into consideration during any future development within the Burwood North Precinct.

1 INTRODUCTION

1.1 Background

Burwood North Precinct is located within the Burwood Council and City of Canada Bay local government areas (LGA), approximately 8 km west of Sydney central business district (CBD), NSW. The precinct has been identified in the Parramatta Road Corridor Urban Transformation Strategy (PRCUTS); an NSW Government strategy developed to revitalise land from Granville to Camperdown. The PRCUTS established a 30-year vision to connect Sydney and Parramatta CBDs via a renewed urban corridor.

In 2021, NSW Government approved a concept plan and major civil construction works for the Sydney Metro West, a new rail link operating between Westmead and The Bays Precinct. This plan identified a station at Burwood North (within the Burwood North Precinct), along with the associated excavation and tunnelling works. An updated implementation plan was released by the NSW Government in 2021 and includes new actions for councils to consider when preparing planning proposals within the PRCUTS corridor. Burwood Council reportedly recognises the existing opportunity provided by Sydney Metro West to transform and elevate the vision for the Burwood North Precinct.

Burwood Council have commissioned Cox Architecture Pty Ltd (Cox Architecture) to develop a masterplan and associated planning controls for the Burwood North Precinct. Cox Architecture subsequently commissioned Mott MacDonald Pty Ltd (Mott MacDonald) to prepare a preliminary site investigation (PSI) of the Burwood North Precinct Masterplan Study Area (Burwood North Precinct). The PSI identifies current and historical potentially contaminating activity (PCAs) in the vicinity of the Burwood North Precinct, which may have the potential to variously impact any proposed future development. This PSI will form part of, and help inform, the new Burwood North Precinct Masterplan.

The location and investigation boundary of the Burwood North Precinct is shown on **Figure 1-1**.

Figure 1-1: Burwood North Precinct Location and Investigation Boundary Plan

1.2 PSI Context

This PSI provides a summary of potential site contamination constraints that may be relevant to any future development within the Burwood North Precinct.

1.3 Objectives

The primary objectives of the PSI are to:

- Identify PCAs and associated CoPC relating to the current and historical use of the Burwood North Precinct
- Provide comment on each PCA in regard to potential risks to human health and the environment based to help inform future risks associated with the Masterplan.

1.4 Scope of Works

Based on the project understanding and objectives described above, Mott MacDonald undertook the following scope of works:

- A review of publicly available online resources
- A desktop assessment including the following information provided in the Lotsearch Report (**Appendix A**):
 - Burwood North Precinct identification and zoning
 - Burwood North Precinct description and current land use
 - Surrounding land use
 - Review of historical and recent aerial photographs
 - Topography and drainage
 - Geology and hydrogeology
 - A review of public records (list of NSW contaminated sites notified to EPA and contaminated land records of notice)
- A Burwood North Precinct and immediate surroundings walkover
- Compilation of a PSI report documenting the findings of the above and presenting a preliminary Conceptual Site Model (this report).

This PSI was undertaken in general accordance with guidance provided in the National Environment Protection (Assessment of Site Contamination) Measure 1999 (as amended 2013) (ASC NEPC, 2013).

2 BURWOOD NORTH PRECINCT DESCRIPTION AND CURRENT LAND USE

2.1 Burwood North Precinct

Pertinent Burwood North Precinct details are summarised in **Table 2-1**.

Table 2-1: Burwood North Precinct Details

Item	Relevant Burwood North Precinct Information
Burwood North Precinct Addresses	See Appendix B
Title Plan Identifiers	See Appendix B
Approximate Burwood North Precinct Area	37.5 hectares
Burwood North Precinct co-ordinates (Universal Transverse Mercator)	N Corner: E: 324780 m, N: 6250890 m E Corner: E: 325025 m, N: 625090 m S Corner: E: 324680 m, N: 6250210 m W Corner: E: 324335 m, N: 6250630 m
Current Burwood North Precinct Owner (s)	Various (public and private owners)
Local Government Areas	Burwood (south of Parramatta Road) – Burwood Council Concord (north of Parramatta Road) - City of Canada Bay Council
Current Land Use Zoning	Infrastructure (SP2), enterprise corridor (B6), general residential (R1), low density residential (R2), medium density residential (R3) and mixed use (B4).
Current Burwood North Precinct Use	Mixed Use - residential, commercial/industrial, health, hospitality, educational, recreational and roadway alignment.
Proposed land Use	Mixed Use - residential, commercial/industrial, health, hospitality, educational, recreational, roadway alignment and new Metro station.

3 BURWOOD NORTH PRECINCT LOCATION

3.1 Burwood North Precinct Overview

The six laned Parramatta Road runs in an east to west direction across the northern portion of the Burwood North Precinct. The area to the south of Parramatta Road (within Burwood LGA) comprises approximately 85% of the Burwood North Precinct. This L shaped portion of the Burwood North Precinct is bounded by Shaftsbury Road to the east, Wilga Street to the south and then follows Burwood Road northwards until Comer Street. The southern boundary then runs westwards along Comer Street through to Rowley Street with Grantham Street forming the western boundary. This portion of the Burwood North Precinct comprises of a mixture of:

- Commercial / industrial properties predominantly along Parramatta Road, either side of Burwood Road, the corner of Shaftsbury Road and Wilga Street and Grantham Street. A description of the various commercial/industrial properties located within the Burwood North Precinct is included in **Section 3.4** and **Section 5.4**
- Residential (low and medium density) predominantly along the smaller roads and generally in areas where commercial/industrial properties are absent
- Education including Southern Cross Catholic College to the north of Comer Street between Britannia Avenue and Neich Parade. Methodist Ladies College Middle school is located between Grantham Street and Park Road and Methodist Ladies College Junior school is located between Park Road and Britannia Avenue
- Recreation including the Methodist Ladies College School aquatic centre which is located adjacent to the southern Burwood North Precinct boundary between Britannia Avenue and Park Road
- Hospitality including Bath-Arms Hotel on the corner of Parramatta Road and Burwood Road and Crown Plaza Sydney on the Burwood Road.

The area to the north of Parramatta Road (Canada Bay LGA) comprises the remaining approximately 15% of the Burwood North Precinct with Loftus Street forming the eastern boundary, Burton Street the northern boundary and Broughton Street the Burwood North Precinct 's western boundary. This portion of the Burwood North Precinct comprises of a mixture of:

- Commercial / industrial properties predominantly along Parramatta Road.
- Medium density residential to the south of Burton Street.
- Hospitality such as the Sydney Student Living accommodation facility to the south of Burton Road.

A summary of the various land uses is shown in **Figure 3-1**.

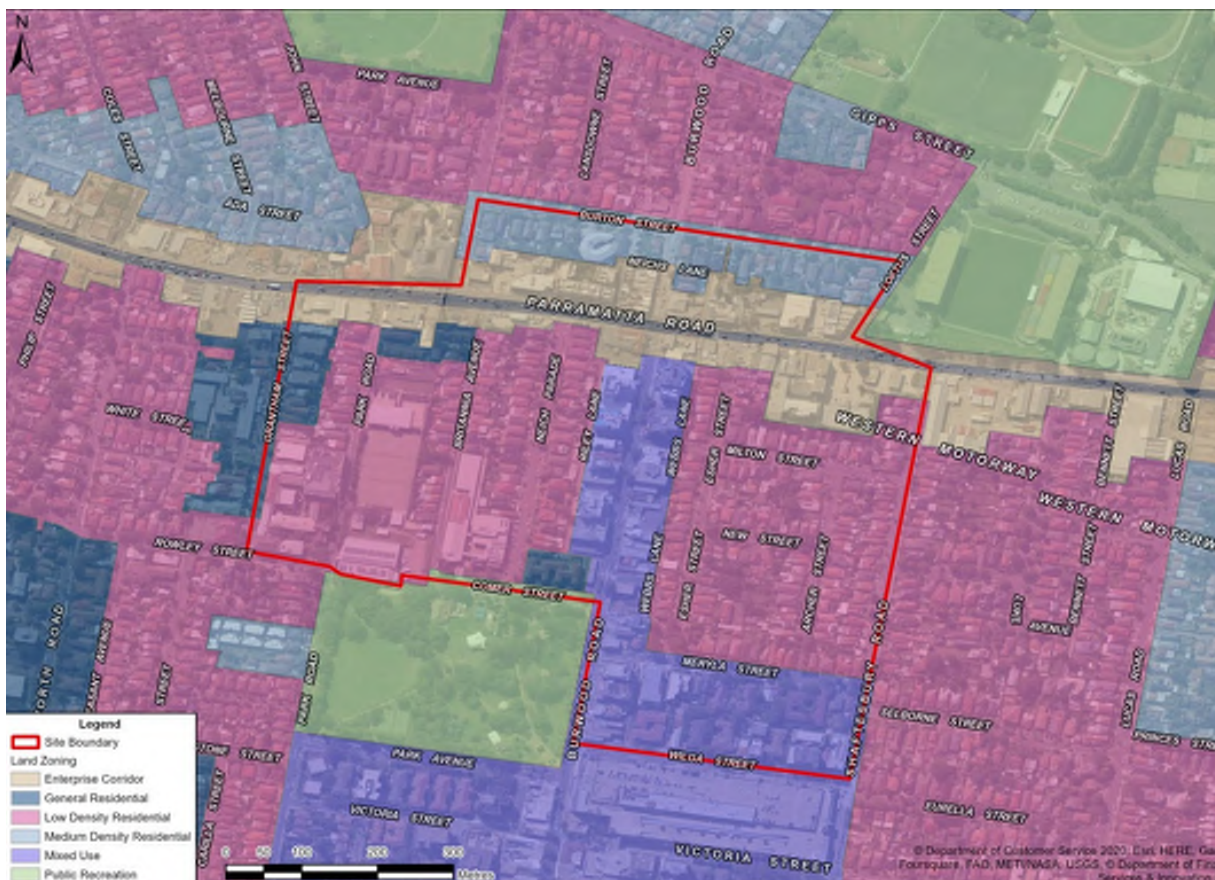

Figure 3-1: Burwood North Precinct General Land Use

The WestConnex M4 tunnel is located approximately 35 metres below ground level (m bgl)¹ and runs in a general east to west direction beneath the northern portion of the Burwood North Precinct.

3.2 Surrounding Land Use

Surrounding land uses include:

- **North** – predominantly residential with several parks and recreational fields, the closest of which being Concord Oval, to the north and north-east. Hen and Chicken Bay, an inlet of Parramatta River, is located approximately 1 km northeast of the Burwood North Precinct
- **East** – predominantly low density residential with commercial /industrial properties adjacent to the Parramatta Road. Burwood bus depot is located on the corner of Parramatta Road and Shaftsbury Road
- **South** – Westfield Burwood shopping centre is located to the south of Wilga Street. Various commercial / industrial properties are located beyond the shopping centre. A large recreational area, Burwood Park, is located to the south of Comer Street with a mixture of commercial/industrial and residential properties

¹ tunnelling-factsheets-final-211218.pdf (westconnex.com.au)

beyond. The Main Suburban line and Burwood Station are located approximately 350 m south of Comer Street

- **West** - predominantly low density residential with commercial /industrial properties adjacent to the Parramatta Road. St John of God Burwood Hospital is located adjacent to the Burwood North Precinct

The following Environmental Planning Instrument Heritage places are recorded within the Burwood North Precinct:

- Bath Arms Hotel, 352-354 Parramatta Rd, Burwood
- Methodist Ladies College, 45 Park Road, Burwood
- Attached Houses, 9 and 11 Archer Street, Burwood
- House "Loretto", 46 Burton Street, Concord
- Teachers Residence Christian Brothers High School, 17 Comer Street, Burwood
- Federation House, 7 Neich Parade, Burwood
- Semi-detached houses, 12-14 Burwood Road
- Victorian Shops, 90-98 Burwood Road, Burwood

There are no Commonwealth, National or State (Curtilages) Heritage listings within the Burwood North Precinct.

3.3 Previous Environmental Investigations

Chapter 11 of the Sydney Metro West Environmental Impact Statement (EIS) for the proposed Burwood North Station provides limited information relating to soils, site contamination and groundwater at the Burwood North Station site. The following five areas of Environmental interest were identified:

- *"AEI 41 – Leaks and spills from automotive dealer (within the northern construction site) – moderate risk of groundwater contamination from leaks and spills of heavy metals, hydrocarbons, volatile organic compounds and asbestos associated with automotive facilities, car dealerships and bus depot.*
- *EI 42 – Chemical and wax use (within the northern construction site) – moderate risk of groundwater contamination associated with car wash and detailing including heavy metals, hydrocarbons, surfactants and per- and poly-fluoroalkyl substances (PFAS).*
- *AEI 43 – Hazardous building materials (within the construction sites) – very low risk of soil contamination from hazardous building materials within or from on-site buildings/structures, demolition wastes, including heavy metals, hydrocarbons, pesticides and asbestos.*
- *AEI 44 – Vehicle particulate deposition (within the construction sites) – very low risk of soil contamination from historical vehicle deposition of particulate matter including from hydrocarbons, leads, asbestos.*
- *AEI 45 – Historical commercial and industrial use in surrounding locality (outside of construction sites) – moderate risk of groundwater contamination from historical inappropriate chemical storage and use, industrial operations, waste disposal and management, including from heavy metals, hydrocarbons, volatile organic compounds (VOCs)."*

The EIS stated that the "overall, the risk of shallow soil contamination or encountering previously dumped construction waste within the existing construction sites is expected to be low as it would have been removed or managed prior to construction of this proposal. The ingress of contaminated groundwater to subsurface infrastructure is expected to be partially or fully mitigated through remediation performed during the work carried out under the previous Sydney Metro West planning application."

Dewatering was reportedly required to assist in the construction of the Burwood North Station. It was noted that *“the baseline groundwater quality may be impacted by a change in the groundwater quality flow direction, towards the un-tanked station box and shaft (which has the potential to induce contaminated groundwater seepage). Potential contaminants of concern include heavy metals, hydrocarbons, solvents, VOCs, surfactants and perfluorooctanesulfonic acid. The potential contamination impact was assessed to be moderate for groundwater.”*

Whilst soil and groundwater contamination was identified in the EIS this will likely be managed, and remediated if required, during the construction Burwood North Station.

3.4 Burwood North Precinct Walkover

Mott MacDonald conducted a walkover of publicly accessible roadways within the Burwood North Precinct and surrounding areas on 21 November 2022. A photographic log is provided as **Appendix C**. Key observations from the walkover include:

- The Burwood North Precinct generally comprises of mixed density residential with areas of industrial/commercial land use predominantly located adjacent to Parramatta and Burwood Roads.
- Burwood Bus Depot was located directly east of the Burwood North Precinct on the corner of Shaftesbury and Parramatta Roads. The bus depot appeared to be operational at the time of the inspection (**Photo 1**). Two monitoring well covers (groundwater and/or ground gas) were visible on the outside of the property boundary on the pavement adjacent to Parramatta Road (**Photo 2**) with a further monitoring well cover visible on Shaftesbury Road, west of the Burwood Bus Depot Boundary (**Photo 3**). The wells are inferred to be associated with historical investigations undertaken at the bus depot, see **Section 5.3.1**. Signage indicates that hazardous chemicals are currently stored in a bus depot building to the east of the main depot (**Photo 4**).
- The following two operational service stations were located within the Burwood North Precinct:
 - 7-Eleven service station located on the corner of Shaftesbury and Parramatta Roads (**Photos 5 to 7**):
 - The hard standing in the station forecourt appeared to be in a generally good condition and free from obvious cracks or defects. No evidence of concrete patches (indicative of underground storage tank (UST) removals) were visible.
 - Monitoring well covers (groundwater and/or ground gas) were visible on the property boundary on the pavement adjacent to Parramatta Road (**Photo 8**) and within an adjacent grassed area on Shaftesbury Road (**Photo 5**). A monitoring well cover was also visible within the footprint of the 7-Eleven petrol station (**Photo 9**).
 - A bunded aboveground liquefied petroleum gas (LPG) tank was visible on the service station forecourt (**Photo 10**).
 - The surfacing around the fuel dispensing area was newer than that observed around the remaining forecourt. The area was also bunded (**Photo 11**) to potentially avoid petrol spillages during vehicle refuelling.
 - Ampol service station (**Photos 12 and 13**) located on 400 Parramatta Road:
 - The hard standing in the station forecourt appeared to be aged but in a generally good condition.
 - A monitoring well cover (groundwater or ground gas) was visible on the petrol station boundary (**Photo 14**).
 - A belowground LPG tank was located within the service station footprint (**Photo 15**)
- A concrete lined channel (St. Lukes Canal) was visible running from beneath Parramatta Road northwards towards Gipps Street (**Photo 16**). The canal is approximately 150 m east of the Burwood North Precinct. At the time of the inspection a limited flow of water was observed within the canal. Cracks and weep holes were visible in the concrete canal walls which may allow potential water ingress during infiltration periods.
- To the east of St Lukes Canal were two groundwater treatment plants. The first treatment plant was for groundwater generated from the underlying WestConnex M4 tunnel (**Photo 17**) with the second being

operated by City of Canada Bay Council (**Photo 18**) for the treatment and water storage tanks. These treatment plans are located approximately 200 m northeast of the Burwood North Precinct. Reed beds for the treatment of groundwater water from WestConnex M4 were visible (approximately 90 m northeast of the treatment plant), see **Photo 19**.

- Construction works associated with the new Burwood North Metro Station were visible at the northeast corner of Parramatta and Burwood Roads. The new metro station is within the Burwood North Precinct boundary (**Photo 20**).
- A former BP service station (**Photo 21**) appeared to be undergoing redevelopment at the northwest corner of Burwood Road and Burton Street which is approximately 20 m northwest of the Burwood North Precinct boundary.
- A brick housed electrical substation was visible at 1 Broughton Street, 60 m north of Parramatta Road. (**Photo 22**).
- Several commercial/ industrial units were visible along Parramatta Road including:
 - A motor mechanics located at 55 Parramatta Road (**Photo 23**).
 - A car wash and detailing business located at 320 Parramatta Road, south of the main road (**Photo 24**).
 - A car battery retail shop (**Photo 25**) located at 386 Parramatta Road, south of the main road. The shop frontages and ground surfacing appeared to be aged but in a good condition.
- Various commercial/ industrial units were visible along Burwood Road. Notably, Miele laundrette and dry cleaner (**Photo 26**) was visible at 44A Burwood Road. The shop frontages appeared generally aged.

4 ENVIRONMENTAL SETTING

4.1 Topography and Drainage

The topography within the Burwood North Precinct slopes from approximately 26 m Australian Height Datum (m AHD) at the corner of Grantham Street and Rowley Street down to approximately 6 m AHD on the corner of Parramatta Road and Shaftsbury Road

Surface water run-off is likely to enter the local stormwater system.

4.2 Geology and Soils

The Burwood study area lies within the geological region known as the Sydney Basin. This comprises a structural and topographic basin extending from Batemans Bay in the south, Lithgow to the west, and Raymond Terrace to the north.

NSW Seamless Geology Data Package (accessed via MinView) shows the area is underlain by Ashfield Shale of the Wianamatta Group (**Figure 4.1**), described as 'black to light grey shale and laminite'. Ashfield Shale is thought to have been deposited in a lacustrine to brackish or shallow marine environment during the Middle Triassic period (247.2 – 237.0 million years ago). It generally consists of dark grey to black, sideritic claystone and siltstone and laminated fine-grained sandstone and siltstone. The siderite is described as abundant and oxidised to limonite in weathered rock. It is therefore not present in surface rocks. It also forms hard 'iron-stone' bands, recorded as up to 300 mm thick.

Figure 4-1: Burwood North Precinct Geology

Alluvial valley deposits are shown overlying the Ashfield Shale on the eastern portion of the study area (**Figure 4-1**); and appear to follow the path of a now buried/infilled creek bed in a general north-south orientation. These deposits are described in MinView as 'silt, clay (fluvially deposited) lithic to quartz-lithic sand, gravel'.

Fill, or 'anthropogenic deposits' can be expected across the study area related to existing and previous site developments and construction.

The soils within the Burwood North Precinct are reportedly kurosols, predominantly comprised of hard acidic red soils, with acidic yellow mottled soils found in lower slopes and in valleys.

4.3 Acid Sulfate Soils

A search of the National Acid Sulfate Soils Atlas through Australian Soil Resource Information System identified the soils within the Burwood North Precinct as having an extremely low probability (1-5%) of containing acid sulfate soils. However, the Burwood Local Environment Plan 2012 indicates that the soils beneath the Burwood North Precinct have an acid sulfate soil class of 5 indicating no known risk of acid sulfate soils), see **Appendix A**.

4.4 Hydrology

The nearest surface water body is St Lukes canal, a concrete lined canal, which is located approximately 150 m east of the Burwood North Precinct. The creek emerges from beneath Parramatta Road and runs northwards along the eastern boundary of Concord Oval then beneath Gipps Street and Crane Street before discharging into Canada Bay, part of Hen and Chicken Bay. The discharge point in Canada Bay is approximately 1.1 km from the Burwood North Precinct.

4.5 Hydrogeology

4.5.1 Regional

Regional groundwater in the uppermost aquifer is generally expected to flow in a north-easterly direction towards St Lukes Park and Hen and Chicken Bay beyond. The direction of groundwater flow in the immediate vicinity of the Burwood North Precinct is likely to flow in a similar direction to the regional groundwater. However, groundwater flow may be temporarily impacted (at the time of writing) by dewatering activities underway during the construction of Burwood North Station, see **Section 3.3**.

4.5.2 Registered Groundwater Bore Search

A total of 50 registered bores are listed within 2 km of the Burwood North Precinct, see **Appendix A**. None of the four registered bores listed within the Burwood North Precinct boundary have groundwater depths recorded. Four groundwater monitoring wells located between 270 m and 305 m northwest of the Burwood North Precinct had groundwater depths of between 1.54 and 1.61 m bgl. No area specific data relating to localised groundwater flow was available for the assessment. However, it is noted that two groundwater monitoring wells were located to the north of Burwood Bus Depot potentially indicating that general groundwater flow may be northwards, see **Section 3.4**.

5 BURWOOD NORTH PRECINCT HISTORY

5.1 Historical Title Searches

Due to the number of properties within the Burwood North Precinct boundary a historical title search was not completed as part of the PSI.

5.2 Historical Aerial Photographs

A review of aerial photography from 1930 to 2022 is presented in **Table 5-1** with the aerial photographs being provided in **Appendix A**.

Table 5-1: Historical Aerial Photograph Review

Date	Burwood North Precinct Aerial Description	Surrounding Area Aerial Description
1930	<ul style="list-style-type: none"> A potentially sealed Parramatta Road is visible running in an east to west direction along the approximate current road alignment. The general road layout to the north and south of Parramatta Road is generally consistent with the current layout. The area to the north of Parramatta Road and south of Burton Street comprises of a mixture of low-density residential properties, vacant plots and commercial/industrial buildings which are predominately adjacent to Parramatta Road. The area to the south of Parramatta Road, west of Shaftsbury Road, north of Wilga, Comer and Rowley Streets and east of Grantham Street comprises of predominantly low-density residential properties with several small vacant plots. A medium sized commercial industrial building is located in the centre of the block of land to the south of Parramatta Road and to the west of Shaftsbury Road. The building appears to be surrounded by vacant land with low-density residential properties located adjacent to the surrounding roads. Methodist Ladies College buildings are visible north of Rowley Street between Grantham Street and Park Road. 	<ul style="list-style-type: none"> Several large buildings (most likely bus storage sheds) are visible on the Burwood Bus Depot site. The area on the northern side of Paramatta Road and to the east of Loftus Street appears to be a recreational oval with adjoining cleared land. Burwood Park (including potentially tennis courts and bowling greens) is visible to the south of Comer Street and west of Burwood Road. The remaining surrounding areas generally comprise of low-density residential properties with intermittent vacant plots. The Main Suburban rail line and Burwood railway station are visible to the south of the Burwood North Precinct. St Marys Catholic Church, primary school buildings and grounds are visible on the northern side of Paramatta Road to the west of Broughton Street.

ITEM NUMBER 70/23 - ATTACHMENT 8

Preliminary Site Investigation (Contamination)

Date	Burwood North Precinct Aerial Description	Surrounding Area Aerial Description
1943	<ul style="list-style-type: none"> A couple of the vacant plots in the north-eastern corner of the Burwood North Precinct (south of Burton Street and west of Loftus Street) and to the east of Burwood Road have been developed with the construction of new low-density residential properties. The higher quality aerial image appears to show that the roads within the Burwood North Precinct are sealed. In the area to the south of Parramatta Road, there are what appears to be three World War 2 air raid shelters visible in vacant plots of land between Park Road and Neich Parade. The vacant land around the medium sized building to the south of Parramatta Road and to the west of Shaftsbury Road appears to be covered in what may be vehicles which could potentially be indicative of an unsealed car storage yard / wrecking yard. 	<ul style="list-style-type: none"> A potential racing track (horse) has been established on the oval (Concord Oval) located in the area on the northern side of Paramatta Road and to the east of Loftus Street. Several former vacant plots of land, most notably to the north of Gipps Street and west of Broughton Street have been developed with new low-density residential properties.
1951	<ul style="list-style-type: none"> The three air raid shelters located between Park Road and Neich Parade are no longer visible. 	<ul style="list-style-type: none"> Recreational grounds, including bowling greens and/or tennis courts have been established north of Gipps Street, south of Crane Street and east of Burwood Road.
1955, 1956	<ul style="list-style-type: none"> A new commercial/industrial building has been constructed on a former vacant block located on the northern side of Parramatta Road, between Broughton Street and Burwood Road. The former Christian Brothers College Burwood (currently known as Southern Cross Catholic College) buildings and grounds are visible north of Comer Street in between Britannia Avenue and Neich Parade. 	<ul style="list-style-type: none"> The surrounding land uses appear to be generally similar to the 1951 aerial image.
1961	<ul style="list-style-type: none"> Seven houses along Parramatta Road between Park Road and Britannia Avenue have been demolished and what appears to be two service stations (398 and 376 Parramatta Road) have been constructed. A large outdoor swimming pool has been constructed on a former vacant block located on the northern side of Burwood Park in between Park Road and Britannia Avenue. Numerous cars are parked adjacent to several of the commercial/industrial buildings located along both sides of Parramatta Road. It is possible these are car showrooms. Numerous cars are also visible on the vacant land around the medium sized building to the south of Parramatta Road and to the west of Shaftsbury Road. 	<ul style="list-style-type: none"> A large portion of the Burwood Bus Depot building on the corner of Paramatta Road and Shaftesbury Road has been removed, and numerous buses appear to be parked on the visible hard standing.
1965	<ul style="list-style-type: none"> Two residential properties have been demolished and what appears to be a service station has been constructed on 20 Burwood Road. 	<ul style="list-style-type: none"> Most of the residential properties located in the block bounded by Wilga Street, Shaftsbury Road, Victoria Street and Burwood Road have been demolished for future redevelopment. Former residential properties have been demolished and a service station (up until recently BP Concord) constructed at 20 Burwood Road, see Section 3.4. An existing commercial/industrial building has been upgraded and extended on the northern side of Burton Street, between John and Broughton Streets.
1970	<ul style="list-style-type: none"> Two residential properties have been demolished and a new commercial/industrial building has been constructed on the northern side of Burwood Park in between Neich Parade and Burwood Road. 	<ul style="list-style-type: none"> The Burwood Westfield Shopping Centre and associated car parking areas have been established on the previously cleared block.

ITEM NUMBER 70/23 - ATTACHMENT 8

Preliminary Site Investigation (Contamination)

Date	Burwood North Precinct Aerial Description	Surrounding Area Aerial Description
1978	<ul style="list-style-type: none"> Two residential properties have been demolished and the land is used for carparking on the south-eastern side of the Paramatta Road intersection with Grantham Street. Several structures have been demolished and a large building has been built directly south of the outdoor swimming pool on the northern side of Burwood Park in between Park Road and Britannia Avenue. 	<ul style="list-style-type: none"> The surrounding land uses appear to be generally similar to the 1970 aerial image.
1982	<ul style="list-style-type: none"> A large building has been built directly south of the swimming pool. The land has been cleared and possible foundation materials have been placed to extend sporting grounds adjacent to the tennis courts north of the swimming pool between Park Road and Britannia Avenue. 	<ul style="list-style-type: none"> Several residential properties have been demolished and the land is used for carparking on a large section of land south of Victoria Street in between Gloucester Avenue and Elsie Street.
1986	<ul style="list-style-type: none"> Sporting grounds have been established adjacent to the tennis courts north of the swimming pool between Park Road and Britannia Avenue. Several residential properties have been demolished and a new building (currently listed as Sydney Student Living) has been constructed to the south of Burton Street. 	<ul style="list-style-type: none"> Stadium infrastructure has been developed around the Concord Oval located on the northern side of Paramatta Road. A large section of land has been cleared and is visibly being excavated north of Gipps Street across the road from the Concord Oval. A large commercial/industrial building is being constructed adjacent to the northern side of the Main Suburban line on the eastern side of Park Road.
1991	<ul style="list-style-type: none"> Commercial/industrial buildings have been demolished, and a large commercial/industrial building has been constructed on the northern side of Parramatta Road, between Broughton Street and Burwood Road. 	<ul style="list-style-type: none"> Further excavations are visible to the north of Gipps Street beyond Concord Oval. Several commercial/industrial buildings have been demolished and a large commercial/industrial building has been constructed adjacent to the northern side of the Main Suburban line between Park Road and John Street.
1994	<ul style="list-style-type: none"> Two residential properties along Park Road to the north of the sporting grounds have been demolished, and the entire area of sporting grounds and tennis courts have been removed. Commercial / industrial development is visible along the northern side of Parramatta Road. 	<ul style="list-style-type: none"> The surrounding area appears to be generally similar to the 1991 aerial image.
2000	<ul style="list-style-type: none"> The former service station at 20 Burwood Road appears to have been demolished and replaced by a new commercial / industrial building. New buildings have been constructed around the medium sized building to the south of Parramatta Road and to the west of Shaftsbury Road. Sixteen tennis courts have been constructed along Park Road opposite the Methodist Ladies College. 	<ul style="list-style-type: none"> Redevelopment works are visible to the Burwood Westfield Shopping Centre.
2005	<ul style="list-style-type: none"> A large extension has been built to the building next to and over the swimming pool on the northern side of Burwood Park in between Park Road and Britannia Avenue. This is the current Methodist Ladies College Aquatic Centre. 	<ul style="list-style-type: none"> The western side of the two recreational grounds/bowling greens located on the northern side of Gipps Street, south of Crane Street and east of Burwood Road, has been demolished and are being used for carparking.
2011	<ul style="list-style-type: none"> Further buildings have been constructed around the medium sized building to the south of Parramatta Road and to the west of Shaftsbury Road. Commercial/industrial and residential properties have been demolished, and a large commercial/industrial building has been constructed on the northern side of Parramatta Road, on the western corner with Broughton Street. Commercial/industrial buildings and/or residential houses have been demolished, and large commercial/industrial buildings have been constructed 	<ul style="list-style-type: none"> A large section of land previously used as a carpark located to the south of Victoria Street and north of George Street has been demolished and two large commercial/industrial high-rise buildings constructed.

Date	Burwood North Precinct Aerial Description	Surrounding Area Aerial Description
	on the southern side of Parramatta Road, on the eastern corner with Grantham Street.	
2016	<ul style="list-style-type: none"> Several commercial/industrial high-rise buildings located on the western side of Burwood Road north of Comer Street and south of Paramatta Road have been constructed. 	<ul style="list-style-type: none"> The parks and recreation fields to the northeast of the Study Area are undergoing redevelopment. Several residential properties have been demolished and a large commercial/industrial high-rise building has been constructed directly to the north of the Burwood Station. Two water treatment above ground storage tanks are visible to the east of Concord Stadium, see Section 3.4.
2022	<ul style="list-style-type: none"> Commercial/ industrial properties to the north of Parramatta Road have been demolished with Burwood North Metro Station construction works are visible. 	<ul style="list-style-type: none"> Stadium infrastructure is in the process of being extended around the Concord Oval located on the northern side of Paramatta Road.

Historical Maps from 1917 and 1936 were also reviewed as part of the PSI. The 1917 historical map shows a brickworks approximately 450 m east of the Burwood North Precinct and the Main Suburban line approximately 350 m south of Comer Street.

5.3 NSW EPA Records

5.3.1 Contaminated Land Records of Notices

A review of the NSW EPA website (www.epa.nsw.gov.au) and the Lotsearch report was undertaken on 21 November 2022 to evaluate if the EPA has issued a regulatory notice in relation to the Burwood North Precinct under *Section 60* of the *Contaminated Land Management Act 1997 (CLM Act 1997)*.

No listed properties were identified within the Burwood North Precinct. However, one Record of Notice was listed within 1 km of the Burwood North Precinct. The Burwood State Transit Authority (STA) Depot (located on the corner of Shaftsbury and Parramatta Roads) is listed as being formerly regulated under the *CLM Act 1997*. A review of documents listed on the EPA contaminated land record register indicates that the site was the subject of a voluntary remediation proposal under *Section 26 CLM Act 1997*. Contamination identified at the site included petroleum hydrocarbons (C10-C26) in soils and free phase and dissolved petroleum hydrocarbons (C10-C36) in groundwater. An accompanying Audit Statement (26 October 2009) confirmed that upon completion of remedial works the site was suitable for commercial industrial use subject to the following conditions:

- Groundwater abstraction is prohibited
- Current site surfacing is maintained and improved over time
- Surface material is to be inspected regularly
- On-going groundwater monitoring is to be continued (two years) and the potential risk to human health evaluated in line with the requirements of an environmental management plan (EMP).

As Burwood STA depot has been subject to an Environmental Audit it must be assumed that the potential risk to human health and the environment is managed under the EMP referenced in the Audit Statement.

It is noted that any groundwater abstractions (including construction dewatering) within the Burwood North Precinct that are close to the Burwood STA depot may have the potential to mobilise free phase or dissolved phase petroleum hydrocarbons into the Burwood North Precinct.

5.3.2 NSW Contaminated Sites Notified to the EPA

A review of the NSW EPA website (www.epa.nsw.gov.au) and the Lotsearch Report was undertaken on 21 November 2022 to evaluate if, under *Section 60* of the *CLM Act 1997*, any properties within the boundaries of Burwood North Precinct or the surrounding areas had been reported to the EPA.

No listed properties were identified within the Burwood North Precinct. However, the following notices were listed within 1 km of the Burwood North Precinct:

- Burwood State Transit Authority (STA) Depot (located on the corner of Shaftsbury and Parramatta Roads) is located adjacent to the Project Study. Contamination formerly regulated under the CLM Act, see **Section 5.3.1**.
- Caltex Service Station located at 89 Parramatta Road; Concord is located 147 m northwest of the Burwood North Precinct. The listing indicates that Regulation under the *CLM Act 1997* is not required.
- Former Caltex Service Station located at 92a Concord Road North Strathfield is located 958 m northwest of the Burwood North Precinct. The listing indicates that Regulation under the *CLM Act 1997* is not required.

A copy of the Contaminated Land Search is provided in the Lotsearch Report, **Appendix A**.

The two Caltex Service Stations are greater than 100 m from the Burwood North Precinct and based on the distance and inferred groundwater flow are deemed to be of minimal risk.

5.3.3 National Liquid Fuels Facilities

The following four sites are listed on the National Liquid Fuels Facilities dataset website²:

- 7-Eleven Pty Ltd, 1A Shaftesbury Road, Burwood (within the Burwood North Precinct).
- Caltex Woolworths Concord, 87-89 Parramatta Road, Concord (147 m northwest of the Burwood North Precinct).
- Coles Express Five Dock, 211 Parramatta Road, Croydon (512 m east of the Burwood North Precinct).
- Coles Express Strathfield, 1-3 Raw Square, Strathfield (728 m west of the Burwood North Precinct).

5.3.4 Licensed Activities under the POEO Act 1997

The Lotsearch report listed three locations with licenced activities under the Protection of the Environment Operations Act 1997 (*POEO Act 1997*) within 1 km of the Burwood North Precinct. These locations are detailed in **Table 5-2**.

Table 5-2: Sites licenced under the POEO Act 1997

Licence holder	Address	Activity	Location relative to Burwood North Precinct
Ferrovial Agroman (Australia) Pty Ltd.	7 Figtree Drive, Sydney Olympic Park, NSW 2127.	Concrete works, Railway infrastructure construction	Within the Burwood North Precinct
Metro Trains Sydney Pty Ltd	Sydney Metro, Rouse Hill, NSW 2155	Railway systems activities	Within the Burwood North Precinct
Sydney Trains	Sydney Trains, Haymarket, NSW 1238	Railway systems activities	334 m southwest

² [National Liquid Fuel Facilities WMS | Datasets | data.gov.au - beta](https://www.data.gov.au/datasets/national-liquid-fuel-facilities-wms)

The Ferrovia Agroman (Australia) Pty Ltd licence appears to be for the construction of the new Burwood North station.

A full list of formerly licenced activities under the POEO Act 1997 is provided in the Lotsearch Report, attached as **Appendix A**.

Environment Protection Licences (EPL) generally detail requirements for the management of pollution risks associated with the licenced activities. As such, if activities are operating in accordance with their respective EPL, the risk of those activities causing contamination would be limited.

5.4 Historical Business Directories

A review of historic business directories 1950, 1961, 1965, 1970, 1975, 1978, 1982, 1986 and 1991 provided in **Appendix A** indicated a total of 173 business records were recorded within the Burwood North Precinct. The only businesses listed on or within the within the Burwood North Precinct where PCAs are likely to have been undertaken are:

- **Battery Manufacture, Recycling or Disposal**
 - Lion Batteries Pty. Ltd, 382-386 Parramatta Road., Burwood (1961 to 1982)
- **Dry Cleaning**
 - Curri R. F. & Co., 76 Burwood Road, Burwood (1948 to 1971)
 - Stay Press Dry Cleaners, 72 Burwood Road, Burwood (1948 to 1972)
 - Stay Press Dry Cleaners, 88 Burwood Road, Burwood (1975 to 1979)
- **Electrical or Electronics Component Manufacture**
 - Allan Electronics Pty. Ltd, 17 Burwood Road, Burwood (1975)
 - Pyrox Ltd, 47-51 Parramatta Road, Concord (1965 to 1970)
- **Metal Coating, Finishing or Spray Painting**
 - Wallace, A. E. and Co, 31 Parramatta Road, Concord (1950 to 1961)
- **Motor Vehicle Repair or Maintenance**
 - Alray Motors (formerly W. L. Engineering Co), 15 Burwood Road, Burwood (1954 to 1958)
 - Askew and Arnold Pty. Ltd, 11-13 Parramatta Road, Concord (1948 to 1972)
 - Auto Exchange, 330 Parramatta Road, Burwood (1950)
 - Burwood Park Service Station, 35 Burwood Road, Burwood (1975 to 1978)
 - Burwood Spare Parts, 302 Parramatta Road, Burwood (1950 to 1986)
 - Concord Spares Pty. Ltd (formerly Boulton A. S. Motor Industries), 29 Parramatta Road, Concord (1961 to 1978)
 - Curley S. T, Eades and Campbell and Eades Auto Service Station, 29 Parramatta Road, Concord (1948 to 1962)
 - Davies, P. E., 31 Burwood Road, Burwood (1961 to 1970)

- Ezi Drive., Parramatta Road & Neich Parade, Burwood (1950 to 1964)
- Kleinig Frank & Kleinig Products Pty Ltd, 402-408 Parramatta Road, Burwood (1948 to 1959)
- Master Panel Beaters Pty. Ltd, 11 Parramatta Road, Concord (1982 to 1986)
- Prestige Smash Repairs Pty. Ltd. (formerly Swavley, G. & Co. Pty. Ltd), 1 Parramatta Road, Concord (1950 to 1978)
- Quinn J. P. 40 Burwood Road, Burwood (1965 to 1971)
- Redhead and Quinn, 74 Burwood Road, Burwood (1950)
- Shaftesbury Service Station, 41 Shaftesbury Road, Burwood (1976 to 1982)
- Swalfe G, 9 Parramatta Road, Concord (1950-1962)
- **Motor Vehicle Wrecking Yards**
 - Burwood Auto Repairs Pty. Ltd., 316-318 Parramatta Road, Burwood (1971 to 1991)
 - Dowling & Reeves, Rear 336A/B Parramatta Road, Burwood (1965 to 1970)
 - Richard's Autos, 300 Parramatta Road, Burwood (1950)
- **Printers**
 - Adept Printing Co., 44a Burwood Rd, Burwood (1950)
 - Posh Printing (Burwood), 3A Burwood Rd, Burwood (1991)
 - Progress Press Distributors Pty. Ltd, 33 Burwood Road, Burwood (1986)
- **Service Station**
 - Britannia Service Station, 376 Parramatta Road, Burwood (1961 to 1971)
 - Burwood Shore/Ampol and Mobil Service Station, 20 Burwood Road, Burwood (1983 to 1993)
 - Esso Burwood Service Station (formerly Atlantic Service Station and Bentley T. J. A. & O), 298 Parramatta Road, Burwood (1964 to 1986). Currently 7-Eleven Pty Ltd, 1A Shaftesbury Road, see **Section 5.3.3** and **Section 3.4**
 - Shell Burwood Self-Serve, Gunn, E and Peters W E M, 390-398 Parramatta Road, Burwood (1948 to 1993)
- **Tyre Manufacture or Re-Treading**
 - Concord Tyre Service, 43 Parramatta Road, Concord (1965)
 - District Tyre Service Pty Ltd (formerly Steel Cat Centre / Alltyre Service), 58 Burwood Road, Burwood (1965 to 1991)
 - Firestone (Sales) Pty. Ltd, 38 Burwood Road, Burwood (1970 to 1978).

Surrounding area locations within 100 m of the Burwood North Precinct where PCAs may have occurred include:

- **Battery manufacture, recycling or disposal**
 - Bell Battery Co, 75 Parramatta Rd, Concord (1950)
- **Dry Cleaning**
 - Lawrence Dry Cleaners, 18 Westfield Shopping Town, Burwood (1978 to 1981).

- **Metal Coating, Finishing or Spray Painting**
 - Rayner, S. B., 244-250 Parramatta Road, Burwood (1950)
- **Motor Vehicle Repair or Maintenance**
 - Burwood Park Service Station, 35 Burwood Road, Burwood (1976 to 1979)
 - Concord Car Sales (formerly A.E.R Pty Ltd), 77 Parramatta Road (1964 to 1969)
- **Service Station**
 - Ampol Burwood, 43 Shaftesbury Road, Burwood (1979 to 1990)
 - BP Concord Service Station (formerly Amoco Concord service station), 20 Burwood Road, Concord (1965 to 1993), see **Section 3.4**.
 - Concord Service Station (Total and Currency), 75 Parramatta Road, Concord (1952 to 1969).

5.5 Unexploded Ordnance

A search of the Australian Department of Defence Unexploded Ordnance (UXO) contamination map³ was conducted on 24 November 2022 to evaluate whether the Burwood North Precinct or surrounding areas were listed. There were no records of UXO contamination within the Burwood North Precinct or surrounding areas.

6 PRELIMINARY CONCEPTUAL SITE MODEL

Schedule B2 ASC NEPM (2013) describes a conceptual site model (CSM) “as a representation of site-related information regarding contamination sources, receptors and exposure pathways between those sources and receptors.” The development of a CSM is an essential part of all site assessments and provides the framework for identifying site contamination and how potential receptors may be exposed to contamination either in the present or the future.

6.1 Potential Sources of Contamination

Based on the findings of the desktop review, potential sources of contamination and associated CoPC for the Burwood North Precinct are presented in **Table 6-1**.

³ [UXO Map \(whereisuxo.org.au\)](http://whereisuxo.org.au)

Table 6-1: Potential Sources of Contamination

PCA	CoPC	Location	Comment
Battery manufacture, recycling or disposal	Acids and metals (cadmium, chromium, copper, lithium and zinc)	Within Burwood North Precinct Lion Batteries Pty. Ltd, 382-386 Parramatta Rd	Lion Batteries have been in operation at the site since at least 1960. The business directory records the premises as being used for both battery manufacture and distribution. As the site has been used to store, and potentially manufacture, batteries for more than 60 years there remains a potential for soil and/or groundwater contamination.
		Outside of the Burwood North Precinct Bell Battery Co., 75 Parramatta Rd	Bell Battery was listed as being at 75 Parramatta Rd in the 1950 business directory only. With a limited operational timescale the potential for soil and groundwater at this off-site location is deemed to be minimal.
Dry Cleaning	Chlorinated Solvents including tetrachloroethene (PCE) and trichloroethene (TCE). Non-chlorinated petroleum-based solvent (TRH) and benzene, toluene, ethylbenzene and xylenes (BTEX)	Within Burwood North Precinct Stay Press Dry Cleaners, 72 Burwood Road Stay Press Dry Cleaners, 88 Burwood Road Curri R. F. & Co, 76 Burwood Road Miele laundrette and dry cleaner, 44 A Burwood Road.	Three dry cleaners were listed in the Burwood North Precinct with the historical business directories. Curri R. F. & Co dry cleaners were listed as being operational at 76 Burwood Road from 1948 to 1971. A review of aerial images indicated that the former commercial building at 76 Burwood Road was demolished and a new office building constructed by 1978. This would suggest that the dry cleaners closed or relocated prior to the construction of the new building. Whilst the original building and underlying soils were removed from 76 Burwood Road there remains a potential for groundwater contamination based on the operational timescale of the dry cleaners at this location. The Stay Press Dry Cleaners was operational at 72 Burwood Road from 1948 to 1972 and then at 88 Burwood Road from 1975 to 1979 suggesting that the business moved premises sometime between 1972 and 1975. 88 Burwood Road has been redeveloped into a commercial building and the commercial/industrial building at 72 Burwood Road is still present. There remains a potential for groundwater contamination at both premises, particularly at the 72 Burwood Road premises based on the operational timescale of the dry cleaners at this location. Miele laundrette and dry cleaner located at 44 A Burwood Road was observed during the site walkover, see Section 3.4 . It is unclear as to how long the business has been at these premises but it is deemed unlikely that chlorinated solvents are still being used at this location. However, there is a potential for non-chlorinated solvent usage which may have impacted soils and/or groundwater.
		Outside of the Burwood North Precinct Lawrence Dry Cleaners, 18 Westfield Shopping Town Burwood	The Lawrence Dry Cleaners was listed in the Lotsearch report. The Dry Cleaners appears to have been operational for only a several years and was located within the Westfield shopping centre. It would appear unlikely that large quantities of solvents were used within the dry cleaners during this limited time period. However, based on the limited operation and distance from the Burwood North Precinct, the potential risk to the Burwood North Precinct soils and/or groundwater would appear to be minimal.
Electrical or electronics component manufacture	Metals (aluminium, beryllium, cadmium, cobalt, copper, lead, manganese, nickel, silver and tin), asbestos, polychlorinated biphenyls (PCBs), ammonia, alcohols, non-chlorinated	Within Burwood North Precinct Allan Electronics Pty. Ltd., 17 Burwood Rd Pyrox Ltd, 47-51 Parramatta Rd, Concord	Two potential electrical or electronics component manufacture facilities are listed within the historical business directories. It is noted that both businesses appear to have been operational for a limited time period which would reduce the potential for potential soil and/or groundwater contamination.

ITEM NUMBER 70/23 - ATTACHMENT 8

Preliminary Site Investigation (Contamination)

PCA	CoPC	Location	Comment
	and chlorinated solvents (TCE & PCE)		
Metal Coating, Finishing or Spray Painting	Acids and alkalis, metals (copper, chromium, nickel, zinc, cadmium, tin, lead, silver, mercury), chlorinated solvents (including PCE & TCE), alcohols, non-chlorinated solvents (benzene, toluene, TRH), cyanides, asbestos and PFAS	Within Burwood North Precinct Wallace, A. E. and Co., 31 Parramatta Rd., Concord	Wallace A. E. and Co. operated out of 31 Parramatta Road between 1950 and 1961. The business directory records list the business operated out of these premises at this time as electrical supplies watchmakers, jewellery and electroplating. Based on the varied nature of the business it is unclear as to the extent of electroplating activities that may have occurred at the Site.
		Outside of the Burwood North Precinct Rayner, S. B., 244-250 Parramatta Rd., Burwood	Several businesses listed under Rayner, S. B. were undertaken at 244-250 Parramatta Rd in 1950. The business directory records list electroplaters, wire, coat hanger and garden tool manufacturers. The manufacturer of metal products and electroplating indicate that surface treatment works were likely carried out at these premises. There is a potential for soil and groundwater contamination associated with surface treatment processes. However, the potential to impact the Burwood North Precinct based on the limited operation time and distance from the Burwood North Precinct would appear to be limited.
Motor Vehicle Repair or Maintenance	Metals, acids, asbestos TRH, polycyclic aromatic hydrocarbons (PAH), BTEX and solvents	Within Burwood North Precinct Alray Motors (formerly W. L. Engineering Co) 15 Burwood Rd, Burwood Askew and Arnold Pty. Ltd., 11-13 Parramatta Rd, Concord Auto Exchange, 330 Parramatta Rd., Burwood Burwood Park Service Station, 35 Burwood Rd, Burwood Burwood Spare Parts, 302 Parramatta Rd, Burwood. Concord Spares Pty. Ltd (formerly Boulton A. S. Motor Industries), 29 Parramatta Rd., Concord Curley S. T, Eades and Campbell and Eades Auto Service Station., 29 Parramatta Rd, Concord Davies, P. E., 31 Burwood Rd., Burwood Ezi Drive., Parramatta Road & Neich Parade, Burwood Kleinig Frank & Kleinig Products Pty Ltd, 402-408 Parramatta Road, Burwood Master Panel Beaters Pty. Ltd., 11 Parramatta Rd., Concord. Prestige Smash Repairs Pty. Ltd. (formerly Swavley, G. & Co. Pty. Ltd), 1 Parramatta Rd. Quinn J. P. 40 Burwood Road, Burwood Redhead and Quinn, 74 Burwood Road, Shaftesbury Service Station, 41 Shaftesbury Road, Burwood Swalfe G, 9 Parramatta Road, Concord	A number of motor vehicle repair and/or maintenance businesses were recorded in the historical business directories. The majority of these appear to be small scale operations, many of them run adjacent to residential properties. There is a potential for soil and/or groundwater contamination associated with the operations of these businesses.

Preliminary Site Investigation (Contamination)

PCA	CoPC	Location	Comment
		Outside of the Burwood North Precinct Burwood Park Service Station, 35 Burwood Road, Burwood Concord Car Sales (formerly A.E.R Pty Ltd), 77 Parramatta Road.	Two motor vehicle repair and/or maintenance businesses were recorded as being within 100 m of the Burwood North Precinct in the historical business directories. There is a potential for soil and/or groundwater contamination associated with the operations of these businesses.
Motor Vehicle Wrecking Yards	Metals, acids, asbestos TRH, PAH, BTEX and solvents	Within Burwood North Precinct Burwood Auto Repairs Pty. Ltd., 316-318 Parramatta Road, Burwood Dowling & Reeves, Rear of 336a/b Parramatta Rd, Burwood Richard's Autos, 300 Parramatta Rd., Burwood	Three motor vehicle wrecking yards appear to have been located within the Burwood North Precinct. What appears to be a large vehicle wrecking around 302-318 Parramatta Road is visible in the 1943 aerial image up until the 1982 aerial image. The site is listed in the historical business directory as belonging to Burwood Auto Repairs Pty. Ltd. Based on the earlier aerial images it is possible that the vehicle storage area was unsealed. Two smaller wrecking yards were recorded on 300 and 336a/b Parramatta Rd. It is unclear as to whether they were always sealed.
Printers	Petroleum hydrocarbons, VOCs, metals, solvents, acids, alkalis, PFAS	Within Burwood North Precinct Adept Printing Co., 44a Burwood Rd., Burwood Posh Printing (Burwood), 3A Burwood Rd., Burwood Progress Press Distributors Pty. Ltd., 33 Burwood Rd., Burwood	Three printers were historically located within the Burwood North Precinct with the oldest business record being Adept Printing Company (1950). There is a potential for soil and/or groundwater contamination associated with the operations of these businesses. However, it is noted that all three businesses, and importantly Adept Printing Company, operated for a limited time only.
Service Stations	Petroleum hydrocarbons (PAHs and TRH) and BTEX Fuel additives (lead and methyl tert-butyl ether)	Within Burwood North Precinct Ampol petrol station located on 400 Parramatta Road. Burwood Shore/Ampol and Mobil Service Station, 20 Burwood Road, Burwood Britannia Service Station., 376 Parramatta Road, Burwood Shell Burwood Self-Serve, Gunn, E and Peters W E M, 390-398 Parramatta Road, Burwood 7-Eleven Pty Ltd, 1A Shaftsbury Road (formerly Esso Burwood Service Station, Atlantic Service Station and Bentley T. J. A. & O), 298 Parramatta Road, Burwood.	Two operational and three former service stations were listed in the business directories or observed during the walkover. The operation service stations include the 7-Eleven Pty Ltd, 1A Shaftsbury Road and EG Ampol petrol station at 400 Parramatta Road, see Section 3.4 . Monitoring well covers (groundwater or ground gas) were identified adjacent to both service stations suggesting the possibility that USTs losses may have been suspected or had occurred. The remaining three sites are no longer service stations and are being used as showrooms (Britannia Service Station and Shell Burwood Self-Serve) or have been demolished and replaced by a high-density residential building (20 Burwood). It is unclear whether the USTs beneath Britannia Service Station and Shell Burwood Self-Serve have been removed or whether soil and/or groundwater contamination exists. As a high-density residential building has been constructed on 20 Burwood Road below ground infrastructure and possibly any impacted soils would be removed during the building foundation excavations.
		Outside of the Burwood North Precinct Ampol Burwood, 43 Shaftsbury Road, Burwood. BP Concord Service Station (formerly Amoco Concord service station), 20 Burwood Road, Concord Concord Service Station (Total and Currency), 75 Parramatta Road, Concord	Three former service stations were listed in the historical business directories. Ampol Burwood was demolished as part of the Westfield shopping centre upgrade prior to 1991 and Concord Service Station is being used as a car showroom. The BP Concord Service Station is currently being redeveloped, see Section 3.4 . Based on the works underway it is possible that a new BP service station is being constructed.

PCA	CoPC	Location	Comment
Tyre Manufacture or Re-Treading	Petroleum hydrocarbons, PAHs, metals, VOCs, solvents, acids, alkalis, cyanide, PFAS	Within Burwood North Precinct Concord Tyre Service, 43 Parramatta Road, Concord District Tyre Service Pty Ltd (formerly Steel Cat Centre / Alltyre Service), 58 Burwood Rd Burwood Firestone (Sales) Pty. Ltd., 38 Burwood Road, Burwood.	Three tyre dealers were historically located within the Burwood North Precinct with the oldest of which being Concord Tyre Service (1955). Based on the company names and the sizes of the commercial / industrial buildings present at the three locations it is likely that these sites were used to replace tyres and not tyre manufacturing works. There is a potential for soil and/or groundwater contamination associated with the operations of these businesses.
Application of pesticides	Organochlorine pesticides OCPs ⁽¹⁾ Acid herbicides Triazines	Within the Burwood North Precinct (all sites – particularly older residential properties)	Arsenic and OCPs were also historically used as a pesticide beneath structures, particularly residential and commercial buildings with timber frames and floors. The OCPs are not highly mobile but are persistent and are likely to be encountered in the shallow surficial spoils beneath some buildings. The risk of OCPs requires consideration in areas where demolition is undertaken as part of the project.
Transport Depots or Loading Sites	Petroleum hydrocarbons including BTEX, TRH and PAHs.	Outside of the Burwood North Precinct Burwood STA Depot, 240-282 Parramatta Road, Burwood.	The Burwood State Transit Authority bus depot was visible on the 1930 aerial photograph. The depot is listed on the NSW EPA contaminated land records of notice, see Section 5.3.1 . The site has been subject to an Environmental Audit with residual soil and groundwater contamination reportedly being managed under an EMP. Whilst existing contamination is managed there is a potential risk associated with any adjacent dewatering activities which may mobilise groundwater contamination (dissolved and free phase if present) away from the depot and potentially into the Burwood North Precinct.
Fill or soil importation	Various, including metals, PAH, petroleum hydrocarbons, asbestos	Within the Burwood North Precinct (all sites)	Most of the Burwood North Precinct appears to have been developed in the 1932 aerial photograph. Fill, soil and other materials may have been imported to the Burwood North Precinct from various (unknown) sources during previous site development. Previous demolition work on some properties maybe have led to contamination of shallow soils with asbestos containing materials or fragments of lead paint.

(1) Organophosphorus pesticides are unlikely to have been used in significant quantities as they were not extensively used until the 1950s and when applied are generally not persistent in the environment.

6.2 Potential Exposure Pathways

Based on the findings of the desktop review the potential exposure pathways associated with the Burwood North Precinct are summarised below:

- **Human Health**
 - Incidental ingestion – ingestion of soils, extracted groundwater (irrigation / domestic water bores) or surface water
 - Inhalation of dust / vapours
 - Direct contact – shallow soil, shallow groundwater in excavations, extracted groundwater and surface water
 - Bioaccumulation and ingestion – residents potentially irrigating home-grown produce.
- **Terrestrial Ecosystems**
 - Direct contact - uptake from soils, sediments, surface water or irrigated groundwater
 - Bioaccumulation.
- **Groundwater / Surface water**
 - Contaminant leaching
 - Surface water run-off
- **Buildings / Structures**
 - Direct contact with soil / groundwater

6.3 Potential Receptors

Potential receptors identified include:

- **Within the Burwood North Precinct:**
 - Future construction / maintenance workers
 - Residents (low and medium density)
 - Commercial workers
 - Future users of the Burwood North Precinct
 - Users of groundwater, e.g. groundwater boreholes registered for irrigation or domestic use
 - Building materials, e.g. underground steel and concrete pipes and footings
 - Terrestrial ecosystems, e.g., trees within road reserves / gardens, native flora and fauna etc
 - Shallow groundwater
- **Surrounding Area:**
 - Future construction / maintenance workers
 - Residents
 - Shallow groundwater users (e.g. irrigation / domestic use)
 - Intrusive maintenance workers, e.g. underground utility maintenance

- Terrestrial ecosystems

6.4 Preliminary Source / Pathway / Receptor Analysis

A tabulated representation of the preliminary CSM, highlighting potentially complete pathways between sources and receptors is presented in **Table 6-2**.

Table 6-2: Potential Exposure Pathways

PCA	Environmental Media	Exposure Pathway	Potential Receptors
Battery manufacture, recycling or disposal	<ul style="list-style-type: none"> • Soils 	<ul style="list-style-type: none"> • Direct contact with soils • Incidental ingestion of soils 	<ul style="list-style-type: none"> • Residents and commercial workers • Construction workers during any future redevelopment works (likely mitigated to a degree by occupation health and safety protocols) • Intrusive maintenance workers • Terrestrial ecosystems (native flora and fauna) • Building materials, e.g. underground steel and concrete pipes and footings
Dry Cleaning			
Electrical or electronics component manufacture			
Metal Coating, Finishing or Spray Painting	<ul style="list-style-type: none"> • Dust and vapours 	<ul style="list-style-type: none"> • Inhalation of dust, fibres (asbestos) and vapours 	<ul style="list-style-type: none"> • Residents and commercial workers • Construction workers during any future redevelopment works (likely mitigated to a degree by occupation health and safety protocols) • Intrusive maintenance workers • Public road users (during future redevelopment works only)
Motor Vehicle Repair or Maintenance			
Motor Vehicle Wrecking Yards			
Printers	<ul style="list-style-type: none"> • Groundwater 	<ul style="list-style-type: none"> • Direct contact with groundwater • Incidental ingestion • Inhalation of vapours • Leaching of contaminants to groundwater 	<ul style="list-style-type: none"> • Surrounding residents - users of abstracted groundwater for irrigation or consumption (the latter risk is deemed minimal based on the presence of a local reticulated water supply) • Construction workers (during any redevelopment works noting the potential shallow groundwater) • Terrestrial ecosystems • Shallow groundwater as resource • Building materials (contact only)
Service Stations			
Tyre manufacture or re-treading			
Application of Pesticides			
Transport Depots or Loading Sites	<ul style="list-style-type: none"> • Surface water (stormwater and sediments) 	<ul style="list-style-type: none"> • Direct contact with surface water run-off and/or sediments • Incidental ingestion of surface water run-off and/or sediments 	<ul style="list-style-type: none"> • Surrounding residents. • St Lukes canal maintenance works. • Recreational users of Hen and Chicken Bay.
Fill or soil importation			

6.5 Provisional Risk Assessment

The purpose of the PSI is to initially identify whether PCAs may have occurred within, or adjacent to the Burwood North Precinct. There is always an inherent uncertainty associated with whether a PCA has 1) occurred and 2) has led to potential soil, soil vapour and/or groundwater contamination. The following “**Likelihood**” definitions have been used to subjectively quantify the levels of uncertainty associated with the potential presence/absence of contamination for the various PCAs identified during the PSI:

- **Minimal** – whilst a PCA has been identified, there remains significant uncertainty as to whether it has occurred. e.g. agricultural fields are present but there is no available evidence to suggest that the widespread application of agricultural chemicals has occurred.
- **Plausible** – there is potential that historic land uses have undertaken low to medium risk activities on a given site for several years. However, no site-specific information is available to confirm this, e.g. licences granted for herbicide usage along a waterway do not necessarily mean that herbicides have been applied to the area under investigation.
- **Probable** – potentially high-risk activities have been undertaken in a given area that have commonly led to impacts to human health and/or groundwater elsewhere. e.g., a service station or a car wrecking yard that has been operational for more than twenty years.
- **Confirmed** - contamination has been previously identified and the EPA have been notified. e.g., the site is regulated under the *Contaminated Land Management Act 1997*.

Where a PCA has been identified a provisional “**Risk**” has been assigned based on the desktop information available. For the purpose of the assessment the following levels of risk have been applied:

- **Low** – whilst contamination may be present it is unlikely to have any material effect on any future redevelopment. Some limited investigation may be required to confirm the presence or absence of contamination associated with a given PCA.
- **Moderate** – whilst contamination may be present it may require a more extensive investigation and some form of limited remedial works – e.g. excavation and disposal of impacted material to landfill.
- **High** – the nature and extent of possible contamination will likely require capital expenditure to adequately characterise the nature and extent of contamination followed by possible remedial works and/or material design changes.

A summary of the likelihood and potential risk for each PCA within the Burwood North Precinct is presented in **Table 7-1**.

Table 7-1: Preliminary Risk Assessment

PCA	Likelihood	Assigned Risk
Battery manufacture, recycling or disposal	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct - low
Dry Cleaning	Probable	Within Burwood North Precinct - moderate Outside of the Burwood North Precinct - low
Electrical or electronics component manufacture	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct – not applicable
Metal Coating, Finishing or Spray Painting	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct - low
Motor Vehicle Repair or Maintenance	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct - low
Motor Vehicle Wrecking Yards	Probable	Within Burwood North Precinct - moderate Outside of the Burwood North Precinct – not applicable
Printers	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct – not applicable
Service Stations (current and former)	Probable	Within Burwood North Precinct - moderate Outside of the Burwood North Precinct – moderate
Tyre manufacture or re-treading	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct – not applicable
Application of Pesticides	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct – not applicable
Transport Depots or Loading Sites	Confirmed	Within Burwood North Precinct – not applicable Outside of the Burwood North Precinct – low
Fill or soil importation	Plausible	Within Burwood North Precinct - low Outside of the Burwood North Precinct – not applicable

Whilst a confirmed likelihood has been assigned for Burwood STP Depot it is noted that the site has been assessed under audit and an EMP is in place to manage on-going contamination. Therefore, a low risk has been assigned to this PCA.

Where PCAs are not identified within 100 m of the Burwood North Precinct or are not located within the Burwood North Precinct these have been assigned a **not applicable** risk.

It must be understood that the “Likelihood” and “Risk” of each PCA is based on the current Burwood North Precinct setting and is subjective and based on a desktop assessment only. Intrusive investigations may be required to assess the validity of each PCA.

7 SUMMARY

Mott MacDonald has reviewed historical and current records pertaining to the Burwood North Precinct and its surrounds and characterised the contamination risks to the Burwood North Precinct. The Burwood North Precinct and surrounding area have primarily been used for a mixture of residential (predominantly low and medium density) and commercial/light industrial purposes for greater than 100 years.

The CSM (Section 6) identifies potential sources of contamination, receptors and exposure pathways, and risk ranked these PCAs to illustrate the current relative risk. Potential sources of contamination identified during the PSI which may impact the condition of soil and groundwater within the Burwood North Precinct and its surrounds include the following:

**Within the Burwood North Precinct:**

- Commercial and light industrial properties where battery manufacture, recycling or disposal, electrical or electronics component manufacture, metal coating, finishing or spray painting, motor vehicle repair or maintenance, printers or tyre manufacture or re-treading may have occurred
- Dry cleaning at four (three historical and one current) properties along Burwood Road
- Motor vehicle wrecking yards at three properties
- Service stations – two operational and three disused
- Use of fill material of unknown origin that could potentially contain or be impacted with contaminants (asbestos, lead etc)
- General use of pesticides beneath particularly older buildings.

Of the potential pollutant linkages identified in the CSM, three PCAs were considered to present a **moderate** risk to human health and/or the environment:

- Dry cleaners
- Motor wrecking yards
- Service stations

For dry cleaners and service stations there remains a potential for both soil and groundwater contamination associated with historical practices undertaken at these types of sites. There is always a potential for any groundwater impacts to extend beyond the site boundaries potentially affecting adjacent properties. With an inferred shallow groundwater table there remains a potential risk to human health hence the moderate risk assigned. For motor wrecking yards potential contamination is generally more associated with soils, particularly when the yards are unsealed. The potential for groundwater impacts associated with contaminant leaching is present but deemed unlikely to have widespread off-site impacts.

Outside of the Burwood North Precinct:

- Commercial and light industrial properties including battery manufacture, recycling or disposal, metal coating, finishing or spray painting and motor vehicle repair or maintenance
- Dry cleaning
- Service stations
- Transport Depots or Loading Sites

A potential **moderate** risk has been assigned for service stations outside of the Burwood North Precinct as BP Concord Service Station is undergoing redevelopment and is located adjacent to the Burwood North Precinct boundary.

A **low** potential risk has been assigned to Burwood STP Depot as the site has been audited and an EMP has been put in place to manage and soil and groundwater impacts. The potential risk may rise to **moderate** if dewatering activities are undertaken within Burwood North Precinct near to the depot site as this may potentially mobilise groundwater impacts towards the Burwood North Precinct.

The remaining PCAs have all been assigned a **low** potential risk based on the distance from the Burwood North Precinct, limited operating times or the nature of the PCA (i.e. fill material contaminants are unlikely to mobilise off-site).

8 FUTURE WORKS

The Burwood North Precinct appears to have been significantly developed by 1930 and 11 PCAs of varying assigned risk have been identified across the Burwood North Precinct. The PCA sites identified as being of moderate risk (dry cleaners, motor wrecking yards and service stations), and for reference purposes Burwood STP Depot, are shown on **Figure 8-1**.

Figure 8-1: PCA Sites of Moderate Risk and Burwood STP Depot

Any proposed future changes in land use within the Burwood North Precinct will require some form of investigation, at the least a PSI with potentially intrusive investigations and possibly remedial works as required. It is recommended that any future redevelopment of properties adjoining the moderate risk PCA sites shown in **Figure 8.1** should include further investigation, at the least a PSI with potentially subsequent intrusive investigations and possibly remedial works, even if the redevelopment does not constitute a change in land use.

Notwithstanding the above, any redevelopment will likely reduce the overall potential risk to human health, terrestrial ecosystems, groundwater and surface water within the Burwood North Precinct.

10 LIMITATIONS

Mott MacDonald has prepared this Preliminary Site Investigation (PSI) for the Burwood North Precinct defined in the PSI (the Burwood North Precinct) to support Burwood Councils and Cox Architecture Pty Ltd development of the Burwood North Precinct Masterplan. The contents of the PSI are for the use of the Burwood Council and Cox Architecture Pty Ltd and no responsibility or liability to any third party will be accepted. The conclusions are subject to the objectives and scope of work documented in Section 1 of this PSI. The conclusions and all information in this PSI are given strictly in accordance with and subject to the following limitations and recommendations:

- This PSI should be read in full and no excerpts are to be taken as representative of the findings. No responsibility is accepted by Mott MacDonald for use of any part of this PSI in any other context.
- This PSI was prepared at the time of the date of the PSI. This PSI and conclusion(s) are based solely on the information and findings contained in this PSI and/or the commissioned Lotsearch report at this time, and on the conditions encountered and information reviewed at the time of preparation of the PSI and/or any pre-existing reports. Mott MacDonald accepts no responsibility for any events arising from any changes in Burwood North Precinct conditions or in the information reviewed that have occurred after this period.
- This PSI should be read in conjunction with the Lotsearch report (**Appendix A**) and Lotsearch's use of report – applicable terms.
- Any conclusions or recommendations are based solely on the scope of described in Section 1 of this PSI.
- Except as required by law, no third party may use or rely on this PSI unless otherwise agreed by Mott MacDonald in writing. Where such agreement is provided, Mott MacDonald will provide a letter of reliance to the agreed third party in the form required by Mott MacDonald.
- To the extent permitted by law, Mott MacDonald expressly disclaims and excludes liability for any loss, damage, cost, or expenses suffered by any third party relating to or resulting from the use of, or reliance on, any information contained in this PSI. Mott MacDonald does not admit that any action, liability, or claim may exist or be available to any third party.
- This PSI is unsuitable for use by any third party in deciding whether to enter a transaction in relation to the Site or to put the Site to a particular use.
- The assessments carried out for the purposes of the PSI have been undertaken, and the PSI prepared, in accordance with current professional practice and by reference to applicable environmental regulatory authority industry standards, guidelines and assessment criteria in existence at the date of this PSI and any pre-existing reports.
- Where this PSI indicates that information has been provided to Mott MacDonald, or prepared by third parties, Mott MacDonald has made no independent verification of this information except as explicitly stated in the PSI. Mott MacDonald assumes no liability for any inaccuracies in or omissions to that information.
- Except as otherwise expressly stated in this PSI, Mott MacDonald makes no warranty, statement or representation of any kind concerning the suitability of the Burwood North Precinct for any purpose or the permissibility of any use, development or redevelopment of the Burwood North Precinct
- It is strongly recommended that any plans and specifications prepared by the client or other parties and relating to the content of this Report, or amendments to the proposed plans and specifications, are reviewed by Mott MacDonald to verify that the intent of our conclusions and recommendations is properly reflected in the design. During any future construction activities Mott MacDonald requests the opportunity to review our interpretations if the exposed Burwood North Precinct conditions are significantly different from those inferred in this assessment.
- Any uncertainty as to the extent to which this PSI can be used or relied upon in any respect should be referred to Mott MacDonald for clarification.

Contaminated Land

Master Plan, Burwood North, NSW 2134

List of NSW contaminated sites notified to EPA

Records from the NSW EPA Contaminated Land list within the dataset buffer:

Map Id	Site	Address	Suburb	Activity	Management Class	Status	Location Confidence	Dist	Direction
207	Burwood STA Depot	Cnr Shaftesbury and Parramatta Roads	Burwood	Other Industry	Contamination formerly regulated under the CLM Act	Current EPA List	Premise Match	0m	East
315	Caltex Service Station	89 Parramatta Road	Concord	Service Station	Regulation under CLM Act not required	Current EPA List	Premise Match	147m	North West
316	Former Caltex Service Station	92a Concord Road	North Strathfield	Service Station	Regulation under CLM Act not required	Current EPA List	Premise Match	958m	North West

The values within the EPA site management class in the table above, are given more detailed explanations in the table below:

EPA site management class	Explanation
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the Environmental Planning and Assessment Act 1979 (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record of Notices.
Contamination currently regulated under POEO Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. Management of the contamination is regulated under the Protection of the Environment Operations Act 1997 (POEO Act). The EPA's regulatory actions under the POEO Act are available on the POEO public register.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the Protection of the Environment Operations Act 1997 (POEO Act).
Contamination was addressed via the planning process (EP&A Act)	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the Environmental Planning and Assessment Act 1979 (EP&A Act).
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the Contaminated Land Management Act 1997 (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record of Notices.
Regulation being finalised	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997. A regulatory approach is being finalised.
Regulation under the CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the Contaminated Land Management Act 1997 is not required.
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or Protection of the Environment Operations Act 1997. Alternatively, the EPA may require information via a notice issued under s77 of the Contaminated Land Management Act 1997 or issue a Preliminary Investigation Order.

Contaminated Land

**Business Directory Records 1950-1991
Road or Area Matches**

Universal Business Directory records from years 1991, 1986, 1982, 1978, 1975, 1970, 1965, 1961 & 1950, mapped to a road or an area, within the dataset buffer. Records are mapped to the road when a building number is not supplied, cannot be found, or the road has been renumbered since the directory was published:

**Dry Cleaners, Motor Garages & Service Stations 1948-1993
Road or Area Matches**

Dry Cleaners, Motor Garages & Service Stations from UBD Business Directories, mapped to a road or an area, within the dataset buffer. Records are mapped to the road when a building number is not supplied, cannot be found, or the road has been renumbered since the directory was published.

Note: The Universal Business Directories were published between 1948 and 1993. Dry Cleaners, Motor Garages & Service Stations have been extracted from all of these directories except the following years 1951, 1955, 1957, 1960, 1963, 1973, 1974, 1977, 1987.

Geology

Master Plan, Burwood North, NSW 2134

Geological Units

What are the Geological Units within the dataset buffer?

Unit Code	Unit Name	Description	Unit Stratigraphy	Age	Dominant Lithology	Distance
Twia	Ashfield Shale	Black to light grey shale and laminite.	/Wianamatta Group//Ashfield Shale//	Middle Triassic (base) to Middle Triassic (top)	Shale	0m
Q_av	Alluvial valley deposits	Silt, clay, (fluviially deposited) lithic to quartz-lithic sand, gravel.	/Alluvium//Alluvial valley deposits//	Quaternary (base) to Now (top)	Clastic sediment	0m
QH_hr	Anthropogenic deposits - reclaimed estuarine areas	Natural surface elevation raised by placement of fill over former estuarine swamps and subaqueous estuarine margins (supratidal to subtidal zone); estuarine banks and islands formed from dredge spoil.	/Anthropogenic deposits//Anthropogenic deposits - reclaimed estuarine areas//	Holocene (base) to Now (top)	Anthropogenic material	168m
Twim	Minchinbury Sandstone	Fine- to medium-grained lithic sandstone.	/Wianamatta Group//Minchinbury Sandstone//	Middle Triassic (base) to Middle Triassic (top)	Sandstone	660m
Twib	Bringelly Shale	Shale, carbonaceous claystone, laminite, lithic sandstone, rare coal.	/Wianamatta Group//Bringelly Shale//	Middle Triassic (base) to Middle Triassic (top)	Shale	690m
Q_h	Anthropogenic deposits	Anthropocene deposits varying from large man-made clasts (concrete blocks to building demolition rubble) to quarried natural boulders, with interstitial sand-sized to clay matrix.	/Anthropogenic deposits////	Quaternary (base) to Now (top)	Anthropogenic material	722m
MZui__v	Ungrouped Mesozoic igneous units - breccia	Volcanic breccia, varying amounts of sedimentary breccia, and basalt.	/Ungrouped Mesozoic igneous units//Ungrouped Mesozoic igneous units - breccia//	Jurassic (base) to Cretaceous (top)	Undifferentiated breccia	749m
Tuth	Hawkesbury Sandstone	Medium- to coarse-grained quartz sandstone with minor shale and laminite lenses.	/Ungrouped Triassic units//Hawkesbury Sandstone//	Anisian (base) to Anisian (top)	Sandstone	938m

Linear Geological Structures

What are the Dyke, Sill, Fracture, Lineament and Vein trendlines within the dataset buffer?

Soil mapping units and Australian Soil Classification orders within the dataset buffer:

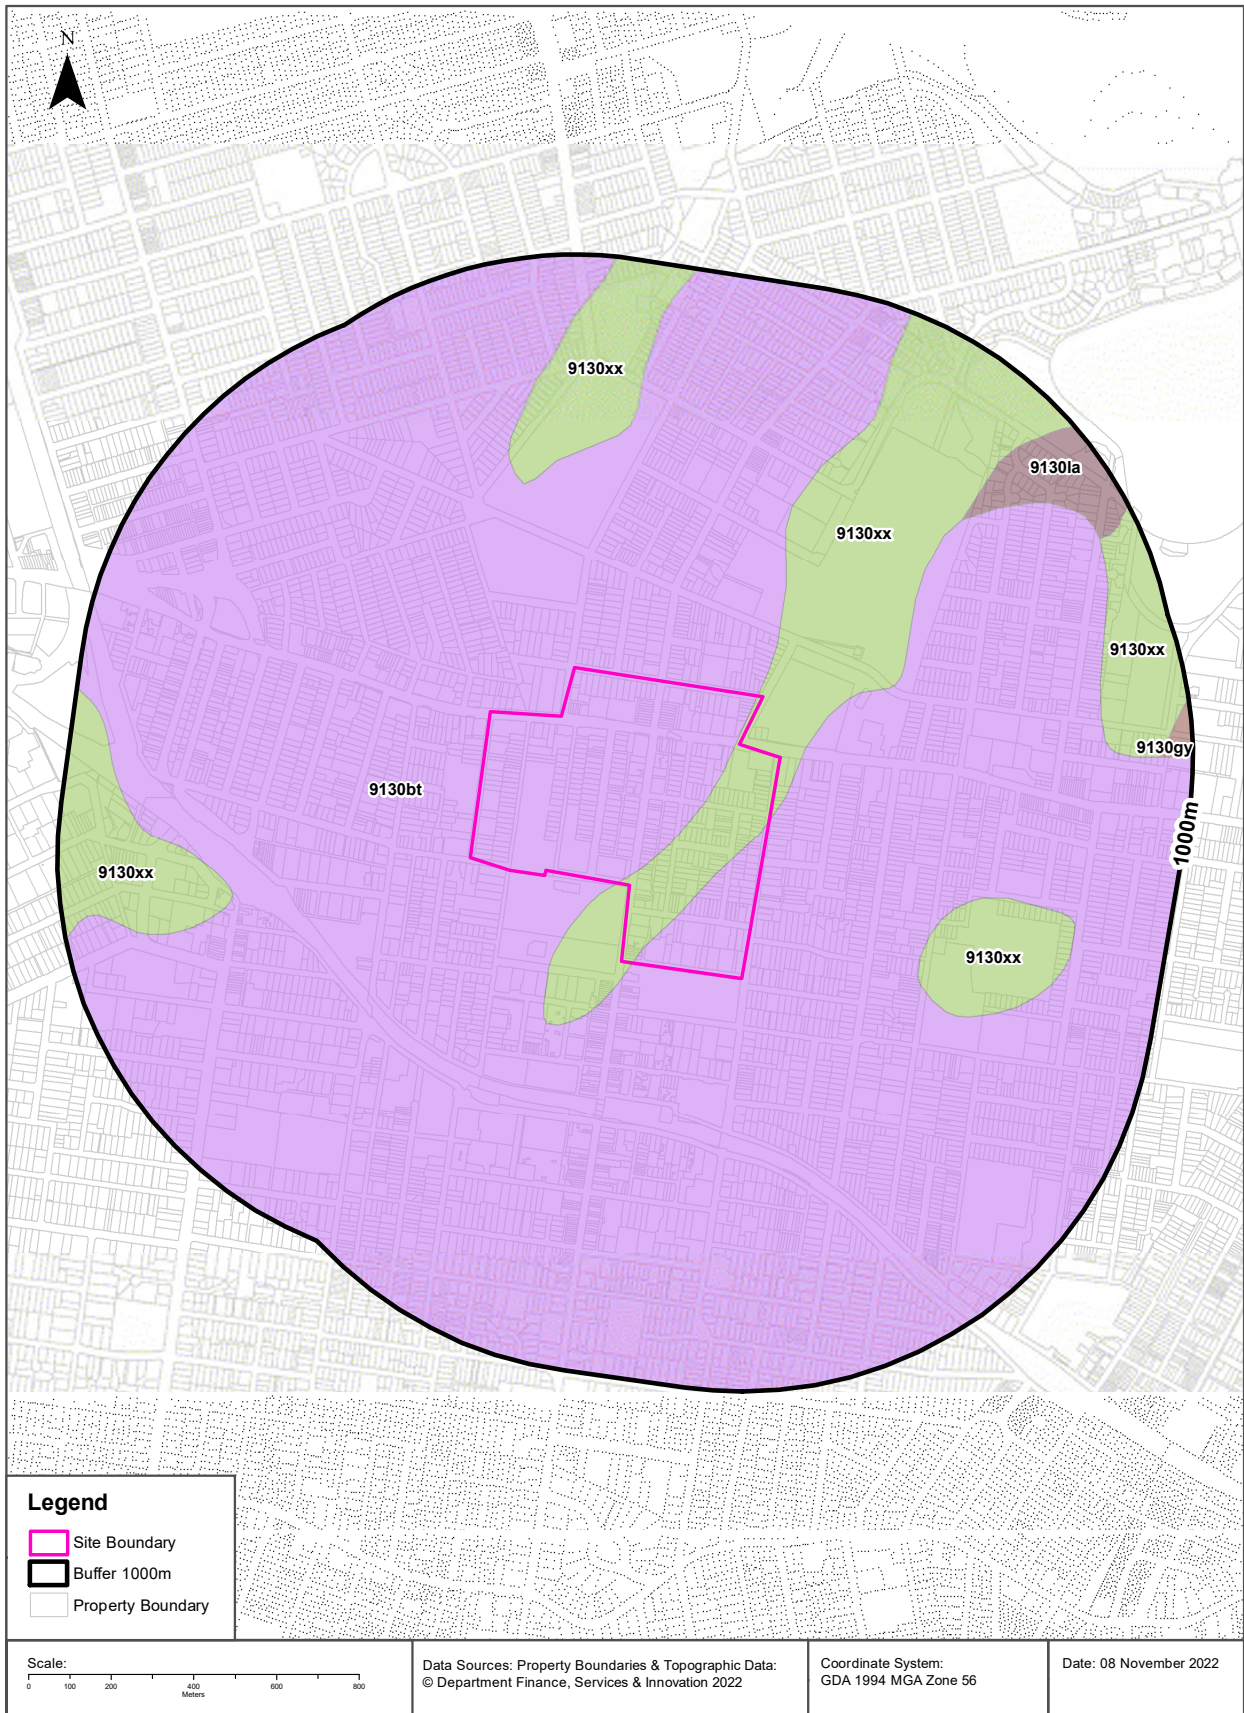

Map Unit Code	Soil Order	Map Unit Description	Distance	Direction
Pb12	Kurosol	Gently rolling to rounded hilly country with some steep slopes and broad valleys: chief soils are hard acidic red soils (Dr2.21) with hard neutral and acidic yellow mottled soils (Dy3.42 and Dy3.41) on lower slopes and in valleys. Associated are small areas of various soils including (Gn3.54) on some ridges, (Dr3.31) on some slopes; (Dr2.23) in saddles and some mid-slope positions, and some low-lying swampy areas of (Uf6) soils and (Uc1.2) soils with peaty surfaces. Small areas of other soils such as (Db1.2) are likely throughout.	0m	On-site

Acid Sulfate Soils

Master Plan, Burwood North, NSW 2134

Acid Sulfate Soils

Master Plan, Burwood North, NSW 2134

Environmental Planning Instrument - Acid Sulfate Soils

What is the on-site Acid Sulfate Soil Plan Class that presents the largest environmental risk?

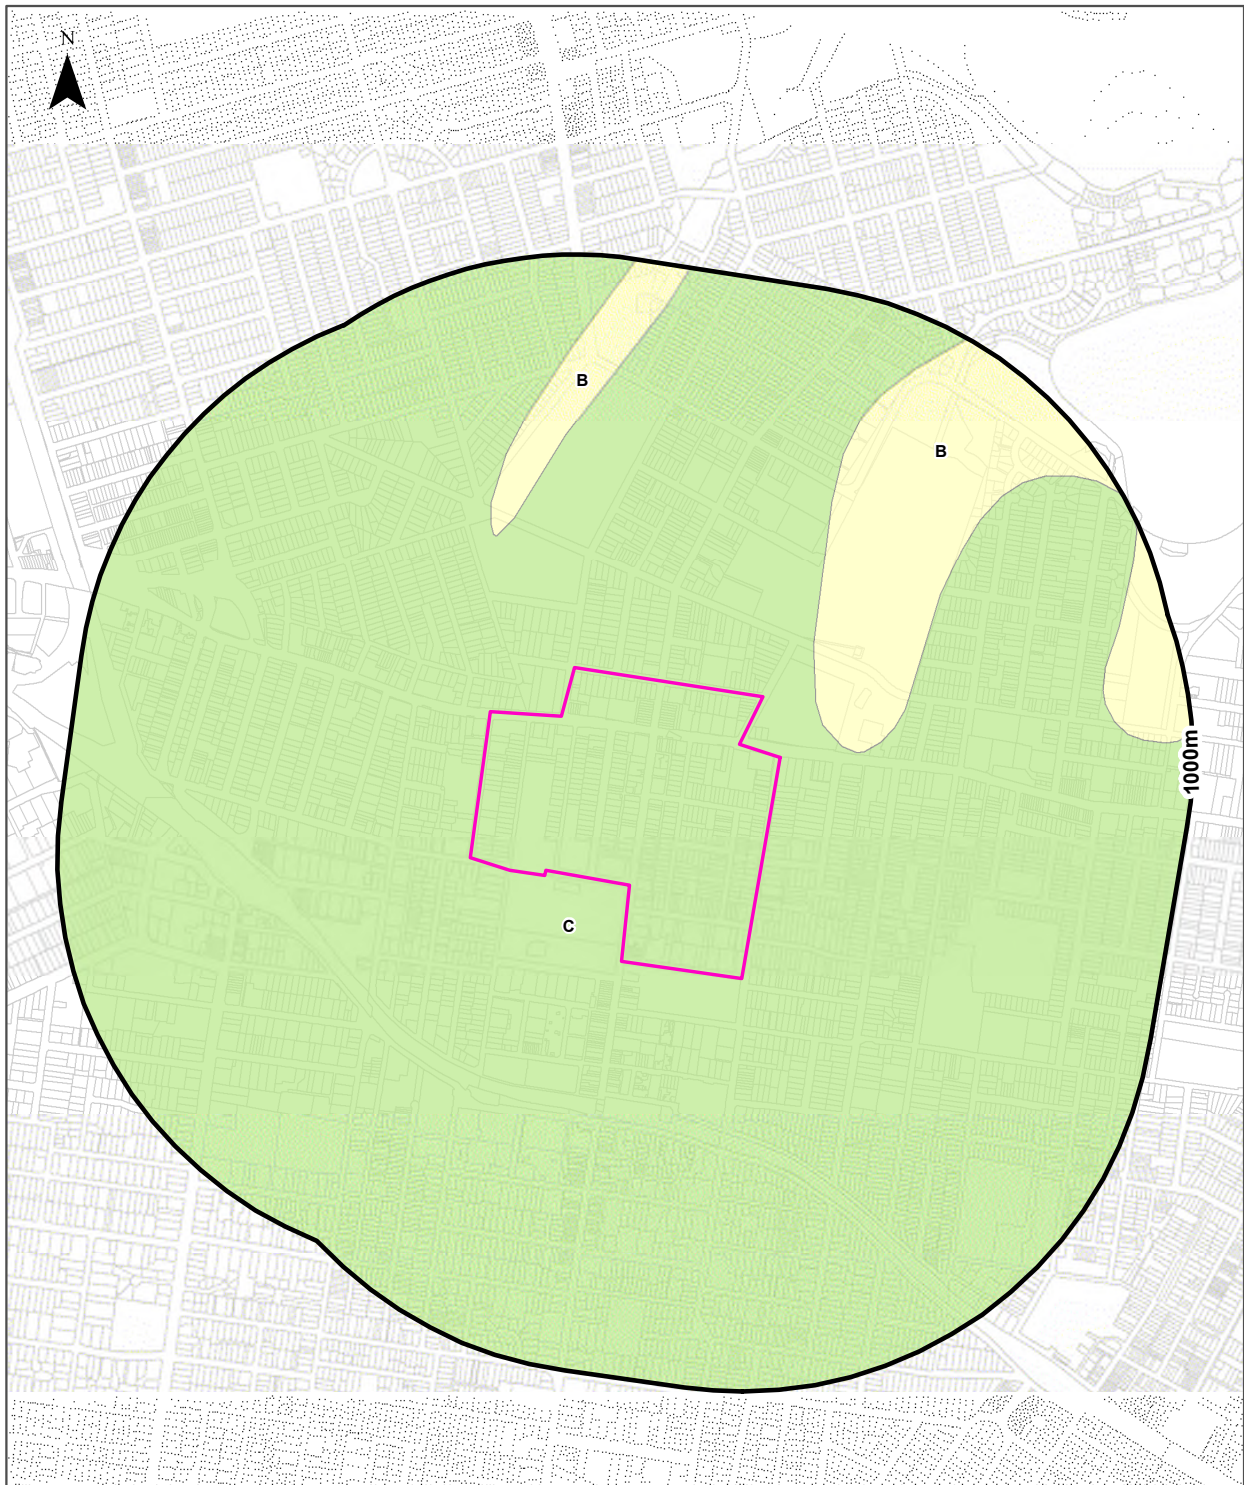

Soil Class	Description	EPI Name
5	Works within 500 metres of adjacent Class 1, 2, 3, or 4 land that is below 5 metres AHD and by which the watertable is likely to be lowered below 1 metre AHD on adjacent Class 1, 2, 3 or 4 land, present an environmental risk	Burwood Local Environmental Plan 2012
5	Works within 500 metres of adjacent Class 1, 2, 3, or 4 land that is below 5 metres AHD and by which the watertable is likely to be lowered below 1 metre AHD on adjacent Class 1, 2, 3 or 4 land, present an environmental risk	Canada Bay Local Environmental Plan 2013

If the on-site Soil Class is 5, what other soil classes exist within 500m?

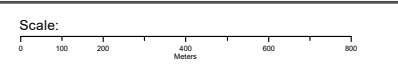

Soil Class	Description	EPI Name	Distance	Direction
2	Works below natural ground surface present an environmental risk; Works by which the watertable is likely to be lowered present an environmental risk	Canada Bay Local Environmental Plan 2013	126m	North East

Dryland Salinity

Master Plan, Burwood North, NSW 2134

Dryland Salinity - National Assessment

Is there Dryland Salinity - National Assessment data onsite?

No

Is there Dryland Salinity - National Assessment data within the dataset buffer?

No

What Dryland Salinity assessments are given?

Assessment 2000	Assessment 2020	Assessment 2050	Distance	Direction
N/A	N/A	N/A		

Dryland Salinity Data Source : National Land and Water Resources Audit

The Commonwealth and all suppliers of source data used to derive the maps of "Australia, Forecast Areas Containing Land of High Hazard or Risk of Dryland Salinity from 2000 to 2050" do not warrant the accuracy or completeness of information in this product. Any person using or relying upon such information does so on the basis that the Commonwealth and data suppliers shall bear no responsibility or liability whatsoever for any errors, faults, defects or omissions in the information. Any persons using this information do so at their own risk.

In many cases where a high risk is indicated, less than 100% of the area will have a high hazard or risk.

Location Confidences

Where Lotsearch has had to georeference features from supplied addresses, a location confidence has been assigned to the data record. This indicates a confidence to the positional accuracy of the feature. Where applicable, a code is given under the field heading "LC" or "LocConf". These codes lookup to the following location confidences:

LC Code	Location Confidence
Premise Match	Georeferenced to the site location / premise or part of site
Area Match	Georeferenced to an approximate or general area
Road Match	Georeferenced to a road or rail corridor
Road Intersection	Georeferenced to a road intersection
Buffered Point	A point feature buffered to x metres
Adjacent Match	Land adjacent to a georeferenced feature
Network of Features	Georeferenced to a network of features
Suburb Match	Georeferenced to a suburb boundary
As Supplied	Spatial data supplied by provider

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.
